Minibus Description

If you're searching for an ideal school minibus, this 17-seater is exactly the kind of vehicle we specialise in supplying at Minibus World. Versatile, reliable and built for everyday use, it's perfectly suited to a wide range of users. This particular exceptionally low mileage example has been fully maintained throughout and will be supplied serviced with a comprehensive warranty, giving you confidence from the outset.

Designed with the needs of secondary schools, colleges and primary settings in mind, it delivers practical, everyday transport with ease. The lightweight 17-seat layout offers generous space and adaptability, while the full-size wheelchair access ramp ensures convenient boarding for all passengers and remains suitable for occasional wheelchair use. Its L4 H2 configuration provides the room and comfort expected from a modern school minibus.

A key advantage for many schools is that this vehicle may be driven on a standard car driving licence, subject to specific conditions. Please speak to our Sales Team for further details. It is the driver's responsibility to ensure they are legally entitled to operate the vehicle.

This model also benefits from several excellent extras beyond the standard specification, including Air Conditioning and Reversing Sensors to support safer, easier manoeuvring.

Powered by a modern Euro 6 compliant diesel engine, the Citroen Relay provides a strong and dependable foundation for this conversion. Spacious and well-engineered, it represents great value and a solid platform for reliable school transport.

To help you tailor the vehicle to your exact needs, a range of optional extras is available. These allow you to customise the minibus to suit your operational requirements.

Please note all photos are of the vehicle pre-retail preparation.

The minibus will be supplied serviced and with a comprehensive warranty package. It will also have a fresh 12-month MOT if fewer than nine months remain at the point of sale, ensuring peace of mind from day one.
