- VCA/DfT

Minibus Description

This CanDrive EasyOn 17 Seat Minibus with Onboard Lift is a newly converted vehicle based on a 2024 Citroën Relay and has covered 43,292 miles. Offering a modern, dependable and highly versatile transport solution, it is ideally suited to schools, care providers, charities, community transport operators and other organisations requiring safe and accessible passenger transport.

Built on the spacious L4 H2 platform, this professionally converted minibus has been designed to provide exceptional flexibility for a wide range of passenger requirements. The interior accommodates up to 17 passengers and features a selection of removable rear seats, allowing the layout to be quickly adapted to carry between one and four wheelchair users while still maximising passenger capacity. This makes it an ideal choice for both mixed-mobility groups and dedicated wheelchair-accessible transport services.

Passenger accessibility is at the heart of the CanDrive EasyOn conversion. A powered onboard wheelchair lift provides smooth, safe and convenient access for wheelchair passengers without compromising valuable interior space. The lift is neatly stowed behind the rear seats when not in use, ensuring a clean and practical interior environment. A manual side access step and strategically positioned grab handles further assist passenger boarding and alighting, providing additional support for those with reduced mobility.

Designed with everyday usability in mind, the minibus offers a straightforward and efficient operating experience. The seating configuration can be adjusted with ease, while wheelchair loading and securing systems have been incorporated to simplify operation for drivers and passenger assistants. This practical design makes the vehicle particularly well suited to busy secondary schools, local authorities and organisations that require reliable and easy-to-manage accessible transportation.

The vehicle is also equipped with Air Conditioning and Rear Parking Sensors, helping to enhance comfort for passengers while improving driver confidence during maneuvering. A grab handle on entrance to the side service door provides an additional premium feature that improves passenger safety and ease of boarding.

This minibus will be supplied serviced and will also benefit from a comprehensive warranty package, providing added reassurance and peace of mind for its next owner.
