Minibus Description

The Ford Transit Leader 14 Seat Minibus is designed with your passengers' comfort, safety, and quality in mind. Built by Minibus World on the dependable Ford Transit Leader base, this versatile 14-seater combines cutting-edge features with practical flexibility. At Minibus World manufacturing 14-seaters is part of our bread and butter. One of our most popular models, it is the perfect transport for organisational needs.

Inside, the cabin offers modern convenience and durability, featuring electrically operated front windows, easy-clean rubber flooring, and Ford's Sync 4 12-inch touchscreen with wireless Android Auto and Apple CarPlay. You'll also enjoy an 8" semi-digital cluster, cruise control, and selectable drive modes (Normal, Slippery, and Eco), ensuring a smooth and efficient drive whatever the conditions.

Externally, this minibus is just as impressive — with halogen projector quad-beam headlights (with daytime running lights and courtesy delay), a passenger-side sliding load door, integrated rear bumper step, and door mirrors featuring Blind Spot Information System (BLIS) for improved safety. Standard driver-assist technologies like Lane Keeping Aid, Speed Sign Recognition, and a Collision Mitigation System provide peace of mind with every journey.

Whether you're transporting students, residents, or community members, this Ford Transit Minibus delivers exceptional performance, quality, and comfort — a modern solution built for care and connection.

Because reliability matters, the vehicle comes with a 3-year manufacturer warranty and a 3-year conversion warranty, giving you total confidence in your investment.
