Minibus Description

If you're searching for a dependable and versatile School or College Minibus, this 2021 (21) Peugeot Boxer L4 H2 17-Seat Lightweight Minibus is an excellent choice. Having covered just 36,116 miles, it offers an ideal combination of practicality, reliability and low running costs for educational organisations and community transport operators alike.

Designed with space, comfort and flexibility in mind, this lightweight L4 H2 minibus is perfectly suited to secondary schools, colleges, primary schools and a wide range of group transport applications. Prior to sale, the vehicle will be fitted with a brand-new 15ft rear wheelchair ramp, providing safe and convenient accessibility for wheelchair users while maintaining excellent day-to-day functionality for standard passenger transport.

Powered by a proven Euro 6 diesel engine, the Peugeot Boxer delivers dependable performance, efficiency and compliance with modern emissions standards. Its robust construction, comfortable driving characteristics and economical operation have made it a popular choice for organisations seeking a reliable and cost-effective transport solution.

Subject to the relevant licence conditions being met, this lightweight minibus may be driven on a standard car driving licence, helping to increase the number of eligible drivers within your organisation. Our Sales Team will be happy to provide guidance; however, it remains the responsibility of the driver to ensure they are legally entitled to operate the vehicle.

To help tailor the vehicle to your exact requirements, a variety of optional extras and upgrades are available. Our experienced team can assist in selecting the most suitable specification for your operational needs.

For added peace of mind, the vehicle will be supplied with service history and, where fewer than nine months of MOT remain at the point of sale, it will also receive a fresh 12-month MOT. This ensures the minibus is fully prepared and ready to join your fleet with confidence.

Please note images are of the vehicle pre-retail preparation. Rear ramp photos are from a previously supplied vehicle.
