Minibus Description

If you're seeking a practical and versatile 17-seat minibus for School, Charity, or Care Home use, this expertly sourced 2020 (70-plate) Peugeot Boxer L4 H2 provides a dependable and spacious platform for everyday group transport. The Boxer's proven engineering and generous interior dimensions make it an ideal base for a high-quality, long-lasting conversion.

This vehicle is undergoing a full interior transformation to maximise flexibility and passenger comfort. The original single front passenger seat is being upgraded to a double passenger seat, increasing capacity and improving usability for organisations that require additional staffing or escort seating. In the rear, the existing three seats are being removed and replaced with fourteen brand-new seats, all mounted on NMI quick-release fixings. This system allows the layout to be reconfigured quickly and safely, giving you the freedom to adapt the space to your operational needs.

The quick-release seating design enables a wide range of configurations, including mixed-mobility layouts and wheelchair-friendly arrangements where required. Whether you're transporting full groups, accommodating passengers with varying mobility needs, or adjusting the layout for specialist activities, the interior can be adapted with ease. An underfloor lift is fitted providing easy boarding for all Wheelchair bound passengers. This minibus will carry up to 4 wheelchair bound passengers.

In addition, excellent extras on this minibus include Twin Grab Poles with accompanying vanity panel, Air Conditioning and Rear Parking Sensors.

Accessibility and practicality remain central to the conversion. The vehicle is equipped to support smooth boarding and disembarking, and the thoughtful layout ensures that securing passengers and managing equipment is straightforward. This makes the minibus particularly well-suited to schools, community groups, and care providers who need a reliable, adaptable vehicle without compromising comfort or safety.

This minibus will be supplied with Service History and a comprehensive warranty package for added peace of mind.

Please note, photos are of the actual vehicle but in its current state with a single front passenger seat and 3 rear seats. This minibus will have the single front passenger changed to a double front passenger seat and the 3 rear seats replaced with 14 seats. See example photo for more information.
