Minibus Description

At Minibus World, we take pride in being more than a vehicle convertor. As a Stellantis Pro-One partner, we build high-quality, Type Approved minibuses that reflect our commitment to safety, durability, and comfort. Every vehicle benefits from the Car, Van and Minibus World Advantage, which includes enhancements such as floor-to-ceiling carpeting, additional insulation and soundproofing, extra storage solutions, and upgraded safety equipment.

Among our most popular options is our CanDrive Flexi, a Peugeot Boxer-based 17-seater, a model widely chosen by schools, charities, care homes, clubs, and community groups. The CanDrive Flexi provides an excellent foundation thanks to its generous interior space, robust engineering, and efficient Euro 6 diesel engine, making it a dependable and cost-effective choice.

This particular vehicle has recently returned to stock and will now undergo our full Minibus World Approved Used preparation where every part of the vehicle, paint, mechanical and interior is checked over with a fine toothcomb with any parts that need to be either repaired or replaced.

The vehicle will be supplied with Service History and a comprehensive warranty package. Additionally, at the point of sale, it will be supplied with a fresh 12-month MOT where fewer than nine months remain.

This minibus has been designed with versatility in mind, particularly for primary school use. It features telescopic ramps for occasional wheelchair access, ensuring that all passengers can travel comfortably and safely.

The specification further enhances its practicality, offering features such as a left-hand grab handle and rear parking sensors. Its build quality is assured through compliance with NSSTA (National Small Series Type Approval) standards, giving complete confidence in its safety and construction.

Finally, this minibus may be driven on a standard car driving licence, provided the necessary conditions are met. Our Sales Team can provide full guidance, although it remains the driver's responsibility to ensure they are legally entitled to operate the vehicle. Please note that the images shown are for illustration purposes and depict a previously vehicle.
