- ✓ NSSTA (National Small Series Type Approval) Certified

Minibus Description

This late 2022 registered Vauxhall Movano Prime L3 H2 CanDrive Flexi 17-seat minibus presents an excellent opportunity for organisations seeking a modern, reliable and highly versatile passenger vehicle. Having recently returned to us from a school contract hire fleet, it has been well maintained and comes complete with Service History.

Designed with flexibility in mind, this full 17-seat minibus features 13 fixed seats and 4 removable seats, allowing accommodation for one wheelchair passenger when required. Telescopic wheelchair ramps provide easy access, making the vehicle ideal for schools, academies, charities, care homes, clubs and community transport operators alike.

This particular example benefits from a strong specification, including Air Conditioning, Rear Parking Sensors, a grab handle with LED entrance lighting, and hard-wearing ABS seat backs. The vehicle is powered by a Euro 6 compliant diesel engine, delivering efficient performance while meeting modern emissions standards.

For complete assurance, the conversion has been built to full NSSTA Type Approval standards, demonstrating compliance with stringent safety, quality and engineering requirements. This certification provides confidence that the vehicle has been professionally converted and thoroughly tested for passenger transport use.

The vehicle will undergo our comprehensive retail preparation programme prior to sale and will be supplied with service history and a comprehensive warranty package. For additional peace of mind, a fresh 12-month MOT will also be provided where fewer than nine months remain at the point of sale.

As one of our most popular models, the CanDrive Flexi combines practicality, comfort and safety, making it especially well suited to primary school and community transport applications. In many cases, the vehicle may be driven on a standard car driving licence, subject to eligibility criteria. Our Sales Team will be happy to provide guidance, although it remains the driver’s responsibility to ensure they are legally entitled to drive the vehicle.

As a Stellantis Pro-One Partner, Minibus World is more than a vehicle converter—we manufacture Type Approved minibuses engineered for safety, comfort and durability. Every vehicle benefits from the Car, Van & Minibus World Advantage, including enhanced insulation and soundproofing, floor-to-ceiling carpeting, additional storage solutions and upgraded safety equipment.
